Providing **Development Services** to a Leading **Online School**

The Client

A leading online school, dedicated to personalized learning, has more than 180 courses ranging from Algebra to AP Art History and everything in between.
Their courses are similar to certified teachers who teach them. Public, private, and home-school students from kindergarten through 12th-grade use their courses to succeed at their own pace and schedules.

The Challenge

Recreation of 1416 complex media assets within five months

The client needed to recreate 1416 flash (.swf) media assets to make them 508 compliant as per the Vendor Development Guidelines within five months. The complexity of the assets ranged from medium to very complex. MRCC took up the challenge head-on, which involved ramping up skilled developers with good knowledge of HTML5/JavaScript. MRCC trained them with Vendor Development Guidelines.

Our Solution

Swift target delivery along with quick recruiting, prompt training, and valuable mentoring

- Delivery of mid-level assets to match the target of 70 assets a week
- Recruitment of HTML5/JavaScript resources
- Recruitment of 20+ resources within 1 week
- Prompt training of the resources as per Vendor Development Guidelines
- Provided the team with the regular support, daily involvement, and mentoring by senior developers

The Result

Exceptionally quick Turn-Around-Time

MRCC's diligent efforts resulted in an incredibly quick turn-around which led to the release of new courses in record time.

Client Experience

"Thank you for all of your work on the Project. Overall, I feel that you and your team did a fantastic job. All of the components looked great and were created in a very timely manner. I would recommend you and your team and hope to work with you again in the future!"
