Breaking
Accessibility Barriers

Seamless accessibility solutions to foster an inclusive and equitable learning experience for all learners regardless of ability or background.

Accessibility Complexities

Investing in accessibility solutions enhances the educational experience for all students by ensuring supportive learning community. Challenges in charting inclusive course content include:

- WCAG 2.1 /Section 508 compliance
- Limited SME resources
- Disparities in technology

Did you know?

According to a 2019-2020 report by the National Center for Education Statistics, 15%-20% of U.S. students experience a disability.

Only **3%** of websites are WCAG 2.1-compliant.

40% of disabled students are unable to access online courses.

58% of online disabled students abandon inaccessible courses.

2,281 accessibility lawsuits were filed in 2023.
